**DETAILED ACTION**

***Specification***

1. The disclosure is objected to because "(a)s a . . . process" (page 4, lines 1 and 2) is awkwardly worded.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- "said surface layer . . . process" (claim 7, lines 1 and 2) is awkwardly worded.

***Allowable Subject Matter***

4. Claims 1-6 are allowed.
5. Claim 7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. The following is a statement of reasons for the indication of allowable subject matter:
  - The claims are allowed because the prior art does not teach or suggest, in polishing cloth comprising a base material and a surface layer stacked over the base material, the

surface layer comprising a foamed layer and a non-foamed layer, the foamed layer including air bubble cells, the non-foamed layer having an externally exposed surface where linear cuts are formed, the linear cuts reaching the air bubble cells whereby the air bubble cells communicate to the exterior through the linear cuts.

**Conclusion**

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

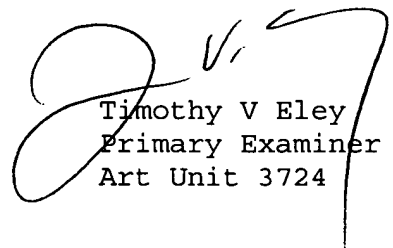

- The cited prior art discloses laminated structures containing open cells.
